Claims Dandruff Will Cause Baldness

If you have dandruff you must get rid of it quick—it's positively dangerous and will surely ruin your hair if you don't. Dandruff leads to baldness, brittle, scraggly hair that finally dies—new hair will not grow—then you are hairless and nothing can help you. The sure way to abolish dandruff for good is to destroy the germ that causes it. To do this quickly, safely, and without risking a penny, get from your druggist a bottle of Parisian Sage. This is guaranteed to banish all dandruff, stop itching scalp and falling hair and stimulate a new growth, or the cost, small as it is, will be refunded. Parisian Sage is a scientific preparation that supplies hair needs—an antiseptic liquid, neither sticky or greasy, easy to use, and daintily perfumed. If you want beautiful, soft, thick, lustreous hair, and lots of it, by all means try Parisian Sage. Don't delay—begin tonight—a little attention now insures abundant hair for years to come. Lee & Osgood Co. will supply you and guarantee money refunded if you are not entirely satisfied.
